Sub: Request for Construction of New Toilets / Washrooms in various locations

Respected Sir,

I would like to draw your kind attention to the urgent need for the construction of the new toilets and washrooms located within the premises of Nistarini College.

Nistarini College, established in 1957, is the only girls' college in Purulia district and has been serving the cause of women's education with dedication and commitment. The college presently has a limited number of toilets constructed in the traditional manner. However, owing to the increasing student strength, these toilets are no longer adequate and many of them are not in a proper usable condition.

Apart from regular academic activities, the college is frequently selected as a centre for various competitive examinations. This year, the college has also been designated as a polling booth during elections. Moreover, the ongoing UG admission process is expected to bring a large number of students, guardians, and visitors to the campus on a regular basis.

Under these circumstances, the existing condition of the toilets and washrooms is leading to an unhygienic environment, which may adversely affect the health, hygiene, safety, and dignity of our girl students and female staff members, including teachers.

In view of the above, I earnestly request you to take necessary steps at the earliest for the construction of new toilet complex so as to ensure a healthy, hygienic, and dignified environment for students, staff members, teachers, and visitors.

Thanking you.

Yours faithfully,

Dr. Ajanta Das
